

## 95 Express 3+ Carpool Program Details

A minimum of three registered commuters traveling to and from work are required in a carpool when traveling 95 Express to access the lanes toll free. Failure to comply may result in receiving a violation notice, incurring possible toll fines and subsequent removal from registered eligibility.

A 95 Express 3+ Carpool decal should be placed on the inside lower left driver's side of the windshield for all vehicles registered to use the lanes toll-free.

A 95 Express 3+ Carpool Letter of Verification is provided each time a carpool registers or renews their carpool. This letter should be kept in the vehicle when using the 95 Express Lanes as a 3+ Carpool. The letter also provides the date the registration is eligible to begin (or continue) using the 95 Express lanes toll free. Usage of the lanes prior to this date may result in toll charges.

95 Express 3+ Carpool vehicle registrations will be valid as long as the carpool registration remains current and up to date. Please note the carpool and vehicle expiration dates (*Note: in some cases the carpool expiration date may be prior to the actual vehicle expiration date*).

All 3+ Carpool participants are responsible for maintaining and renewing their carpool and vehicle registration with SOUTH FLORIDA COMMUTER SERVICES in order to avoid toll charges. SOUTH FLORIDA COMMUTER SERVICES will send each member of the carpool group a renewal notification one month prior to the carpool expiration date. If the 3+ carpool registration is not renewed, the carpool will be deleted, the participants in that carpool will be placed in an "deactive" status and SunPass® will be notified to remove the license plate from the eligible list of toll-free users of the 95 Express lanes. Any toll charges incurred due to an expired or deactivated active carpool and/or vehicle registration will not be reimbursed.

Participants are responsible for properly shielding their SunPass® transponder when using the 95 Express Lanes as a toll free-user or they may be responsible for any toll charges incurred.

Participants are responsible for keeping all their information current and up-to-date to ensure their registration stays active.

Any questions or concerns regarding toll charges for active registrations must be addressed within 30 days of the date of the toll charge. Toll charges received due to expired or deactivated registrations will not be reimbursed.

95 Express registrations are only valid for the 95 Express Lanes and do not allow toll free usage on any other toll lanes.
